Response to Amendment

Applicants' amendment filed on April 04, 2005 has been entered and forwarded to the examiner on April 11, 2005.

Therefore claims 1,3-18 as amended by the amendment and presently newly added claim 19 and claim 2 as originally recited are currently pending in the Application.

Allowable Subject Matter

Claims 1-19 are allowed.

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art of record fails to teach a combination of all the claimed features as presented in independent claims (1, 18 and 19) wherein in the image pick-up units environment a plurality of filters wherein at least one of the optical filters have different shape and different optical properties (cl.1), the length and width of the at least one filter of the plurality of filters is different from the length and width of another optical filter (cl. 18) and wherein each optical filter has corners chamfered by different amounts (i.e. different shape).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
